English 2200: A Programmed Course in Grammar and Usage
Students will develop confidence in their ability to apply programming techniques to problems in a broad range of fields. This course uses the Python 3.5 programming language. Prerequisites: No prior programming experience is necessary to take, understand, or be successful in 6.0001. Familiarity with pre-calculus, especially series, will be helpful for some topics, but is not required to understand the majority of the content.
