Bacteriological Analytical Manual (BAM)

Besides inhibition of the electron transport chain, aflatoxins are also good carcinogens. Consequently, the International Agency for Research on Cancer (IARC) of the World Health Organization in 1987 classified aflatoxins and, in 1993, it classified aflatoxin B 1 as Group 1 carcinogen []. Since then, aflatoxins concentration has become one of the most critical indicators of food and feed toxicity.

Methods for Detection of Aflatoxins in Agricultural Food Crops

This review presents an overview of analytical methods for the analysis of pesticide residues in grapes and by-products in the last decade. The most widely used detection technique for the determination of pesticides in grapes is mass spectrometry combined with gas and/or liquid chromatography.

Review of analytical methods for the determination of

INTERNATIONAL JOURNAL OF FOOD AND NUTRITIONAL SCIENCES

This paper is a review of optical methods for online nondestructive food quality monitoring. The key spectral areas are the visual and near-infrared wavelengths. We have collected the information of over 260 papers published mainly during the last 20 years. Many of them use an analysis method called chemometrics which is shortly described in the paper.
