

latvian gambit openings pdf

Gambits are often said to be offered to an opponent, and that offer is then said to be either accepted or declined. If a player who is offered a gambit captures the piece (and thus gains material) the gambit is said to be accepted.

Gambit - Wikipedia

This is a list of chess openings, organized by the Encyclopaedia of Chess Openings (ECO) code. In 1966, Chess Informant categorized the chess openings into five broad areas ("A" through "E"), with each of those broken down into one hundred subcategories ("00" through "99"). The openings were published in five volumes of ECO, with volumes labeled "A" through "E".
