

novel psychoactive substances classification pdf

A designer drug is a structural or functional analog of a controlled substance that has been designed to mimic the pharmacological effects of the original drug, while avoiding classification as illegal and/or detection in standard drug tests. Designer drugs include psychoactive substances that have been designated by the European Union as new psychoactive substances (NPS) as well as analogs of ...

Designer drug - Wikipedia

Introduction. The proliferation of new psychoactive substances (NPS), often marketed as so-called "legal highs", has challenged the international drug control system in recent years (Brandt, King, & Evans-Brown, 2014). Overwhelmingly, the policy response has been to attempt to prohibit sale of NPS using national drug laws (). This approach has been criticised for reinforcing the "cat and ...

A critical analysis of the implementation of a legal

Opioid-induced hyperalgesia " where individuals using opioids to relieve pain paradoxically experience more pain as a result of that medication " has been observed in some people. This phenomenon, although uncommon, is seen in some people receiving palliative care, most often when dose is increased rapidly. If encountered, rotation between several different opioid pain medications may ...
