Basic World-Building For basic world-building, start with a map. Draw your map from anything, but remember that the natural world is full of irregularities. Sometimes, drawing a continent based on the stain a leaf left on the sidewalk after a storm is better than trying to make one up yourself.

### **Magical World Builder - How to Let Go and Love Scrum**

Construction is an exciting field with many different career paths and opportunities. Generally, there are three branches of construction: residential (house building, remodeling), commercial (businesses, offices), and heavy industrial (power plants, mills, steel work).

### **Construction â€“ Worlds of Work**

Work hard on this element first, and then concentrate on building up and fleshing out from there. Youâ€™ll find that the pieces of your world fall much more easily into place once you have a solid foundation from which to expand.
