Inspired by Cheng, Zhu Xi was the first to print the four texts together as a single volume in 1190, and he was also the first to use the term "Sishu" (Four Books) to refer to them.

Ideal Interpretation: The Theories of Zhu Xi and Ronald

Zhu Xi aimed at the reestablishment of the Confucian tradition, and his works, which transmitted the Confucian orthodoxy through proper commentaries on the classics, were urgently in demand. Gardner indicates the general intellectual climate of Zhu Xi's time, compared with that of He Yan's:

Since jing takes on connotations of focus, concentration, and alertness, as well as reverence in Zhu Xi's discourses, mindfulness has been suggested as the English translation that covers the fullness of the term jing (Kalton 1988) in Zhu Xi's thought. In later life, Zhu started to regard this twofold approach to cultivation and realization as too complicated, gradual, and difficult to carry out in practice.

Metamaterials, particularly acoustic, are still in the stage of infancy. Acoustic metamaterials are being explored theoretically, but there has been little headway on the experimental front. The design, development, and characterization of acoustic metamaterials will offer many opportunities in materials science.
